Yes, I will be getting you a response – just focused on getting Sections 3 and 4 of the FS completed right now.

Subject: Mn Questions

Hi Kristine,

A while back, I passed along some question we had on Windward's hardness derived Mn SLV which is used for RAO 8. Is EPA going to respond to these questions? I briefly spoke with Burt for a few minutes after a TCT a month or so back which led me to believe that this was in the works.

Thanks,
